What's care if you can't reach it in time? This was the question that Dr. S. Gurushankar asked himself a few years ago when a dear friend passed away on the way from Tanjore to Chennai, in need of emergency cardiac care. While he lost his friend, Dr. S. Gurushankar gained a powerful vision from the incident. And thus was born Meenakshi Hospital, Tanjore.

Meenakshi Hospital addresses the healthcare requirements of the people of Tanjore and neighboring districts. Inspired by the values of our Chairman Dr. S. Gurushankar, we aim to ensure that no patient in these areas is ever again denied quality care on time, or needs to travel far for it.

A meeting point of cutting-edge technology, experienced doctors, affordable pricing and a caring attitude, Meenakshi Hospital, Tanjore has formulated for itself a unique methodology in healthcare. Our vision is '**to empathize, to love, to heal**'. Which means that we don't just use our expertise to cure illness. We share the sentiment of the people who come to us, thus building in our hearts warmth and love for them, thus enabling ourselves to be in a better position to heal them. With this vision we transform Meenakshi Hospital into a temple that gives hope, alleviates suffering and spreads happiness.

Dr. S. Gurushankar
Chairman
Meenakshi Hospital, Tanjore

The science and art of care

Replete with 120 beds, 15 major specialties and extended infrastructure and services, Meenakshi Hospital brings world-class care to the common man at comfortably affordable costs. It has an established diagnostic wing with a 24-hour Clinical Laboratory, and provides reliable emergency services through its Accident & Trauma Care Unit and Intensive Respiratory Care Unit. Meenakshi Hospital also brings to patients the full-fledged facilities of Radiology, Physiotherapy and Nutrition & Dietetics.

Accident and Emergency Medicine

The only tertiary referral center and level one trauma center in Tanjore, Meenakshi's Accident and Emergency Department is equipped to handle emergencies of all kinds.

- 12-bed Emergency Department, state-of-the-art technology and facilities to do all necessary procedures bedside
- Hi-tech ambulance with Mobile Intensive Care
- 24/7 emergency care; qualified and experienced emergency physicians available round-the-clock
- Golden Hour Care for trauma victims
- X-ray machine, ultrasound and ECHO machines to save precious time and make precise diagnosis to plan treatment
- Backing of all specialties round-the-clock under one roof
- Minor Operation Theatre facility

Cardiology

Meenakshi Hospital's Department of Cardiology is the first and one of the finest in Tanjore. It is blessed with state-of-the-art equipment, Tanjore's most renowned interventional cardiologists and a well-trained and caring staff.

- First flat fixed cathlab in Tanjore
- 24/7 emergency cardiac care
- Reliable Cardiac ICU
- Specializations in emergencies like acute coronary syndrome, heart failure, heart block and other emergencies
- Angiograms, Angioplasties, balloon mitral valvotomies and permanent pacemaker implantations

Surgeons at our Cardio Thoracic and Vascular Surgery Department are among the finest hands in India and the world over. Making it a department that regularly gifts patients back their lives and their smiles.
